

Ryan Kiser

104 Kenneth Ct • Newport News, VA 23602 • rkiser.f23@warren-wilson.edu • 757-597-4798

Education

Warren Wilson College

Bachelor of Arts in Mathematics. 3.72* (subject to change).

Bachelor of Arts in Data Science. 3.72*(subject to change).

Relevant Coursework: Bayesian Statistics & Time Series Analysis, Differential Equations, Machine Learning, Advanced GIS

Commit 20+ hours per week to Warren Wilson Men's Soccer Program, Captain Senior Year.

Swannanoa, NC

December 2026

Menchville High School

Graduated with high Honors. GPA: 4.2.

Member of Varsity Soccer Team, Captain Senior Year.

Newport News, VA

June 2023

Experience

Warren Wilson Athletics Crew

Statistician/General Operations

Swannanoa, NC

August 2024 - May 2026

- Recorded live in-game basketball statistics with 90%+ accuracy to support the coaching staff and for NCAA records.
- Operated official stat-tracking software and databases to ensure reliable data reporting.
- Managed daily operations of the athletics facility, including event setup, and equipment placement.
- Supported multi-sport event execution, allowing for smooth transitions between games and practice blocks.

Warren Wilson Dodge Crew

Driver/Receptionist

Swannanoa, NC

August 2023 - May 2024

- Transported students and community members to medical appointments and meetings with safety and timeliness.
- Facilitated weekly grocery transportation services for campus residents, supporting community access to essential supplies.
- Managed front-desk reception tasks, including greeting visitors, answering calls, directing calls, organizing appointment schedules.

Research Experience

Warren Wilson College

Research Internship - Mathematical Modeling

Swannanoa, NC

January 2026 – August 2026

Project: Dowker Persistence & Hitting Times in Markov Chains.

- Investigated relationships between hitting times in Markov chains and birth/death times in Dowker persistent homology.
- Applied a negative logarithm transformation to convert transition probabilities into additive weights for Dowker filtrations.
- Successfully proved that the death time of the 1-dimensional Dowker class corresponds to the vertex pair minimizing the maximum mutual hitting time.
- Formalized a full research manuscript submitted to SIURO for peer review (in process right now).

Leadership & Activities

Warren Wilson Men's Soccer Program

Captain

Swannanoa, NC

August 2026 - November 2026

- Led team culture by providing clear, vocal leadership, and supporting positive habits like discipline and accountability.
- Supported coaching staff by preparing and maintaining spreadsheets with roster information including classes, player numbers, sizes, and etc.

Skills & Interests

Technical: R (intermediate), Python (intermediate), SQL (intermediate), LaTeX (advanced).

Language: Fluent in English.

Interests: Soccer, Computer Parts and Technology, and Sound Systems.
